**Results: Three New Cases of COVID-19**

**Three (3)** new cases of COVID-19 were identified out of **90** tests performed on Saturday, February 13.

To date, there have been a total of **7,695** officially reported cases of COVID-19 with **130** deaths, **93** cases in active isolation, and **7,472** not in active isolation.

**TODAY'S CAR SCORE<sup>1</sup> 0.8**

<sup>1</sup>The COVID Area Risk (CAR) Score will be recalculated once reports from all participating labs are up to date. The CAR Score accounts for the incidence of new cases, how well current testing identifies these cases, and the rate of spread. The ideal long-term goal is to sustain a CAR Score of 2.5 or less, which has been shown to correlate with very low to zero COVID-related hospitalizations and deaths.

### COVID-19 Vaccination Schedule for February 16 – 20 at UOG Fieldhouse

COVID-19 vaccination clinics resume on Tuesday, February 16 through Saturday, February 20. These clinics will prioritize those due for their second dose of the Pfizer-BioNTech or Moderna vaccine. Those due for their second dose of the vaccine may get their second dose up to four (4) days early. Due to limited supply, Pfizer-BioNTech first doses will be limited to 60 per hour for eligible individuals. No first doses of the Moderna vaccine will be administered.

Walk-ins wishing to avoid long wait times are discouraged from arriving at the 1 p.m. hour. Average wait times during this hour are generally 2-3 times longer than those later in the afternoon or early evening.

Upon arrival, individuals 70 years and older will be sent to the front of the line. Please bring a digital or hard copy appointment confirmation, a photo ID, and proof of Guam residency (Guam Driver's License, Guam ID, Green Card, US or FSM Passport, H1B or H2B visas for skilled workers). Those due for their second dose are reminded to bring their COVID-19 immunization card. This ensures quicker processing and proper documentation.
